

# Vision+™

## THE GENETIC VISION YOU'VE ASKED FOR.

**THE MOST COMPREHENSIVE GENOMIC TESTS ON THE MARKET,  
NOW AVAILABLE FOR ALL.**

***The Vision+75™ Genomic Results include 75 Traits comprising:***

- All 48 CDCB Production, Longevity, Health, Conformation traits plus four Selection Indices.
- The most comprehensive markers package (22 markers), including four Milk Markers
- EcoFeed® data on all Vision+75™ Tested females and is an all-inclusive tool to be used with our mating program, Chromosomal Mating™

***Vision+20™ was developed in collaboration with CDCB to fill a need both the CDCB and STgenetics® saw within the dairy industry.***

The results include 20 Traits, containing

- 15 CDCB Production, Longevity, Health, Conformation traits, three Selection Indices
- Four Milk Markers
- Animal parentage discovery
- EcoFeed® data on all Vision+20™ Tested females

The genomic evaluation for Vision+20™ is performed by CDCB and is also an all-inclusive tool to be used with STgenetics® mating program, Chromosomal Mating™

**GENOMIC TESTING**  
WITH **STgenetics**

**GENOMIC TESTING PROVIDED BY**  
**Genetic Visions-ST™**

\*Vision+20<sup>TM</sup>: Available soon from STgenetics® and Genetic Vision-ST<sup>TM</sup>:  
20 traits genomic test for females.

\*75 Traits genomic test is for the Holstein breed. The number of traits vary for each breed.

\*CDCB: Council on Dairy Cattle Breeding.

\*All standard marker results (18) will be included with your genomic  
results at no extra cost with purchase of STgenetics® semen.
